## Hurricane Season: Are You Ready?

Hurricane season is June 1 through Nov. 30 and typically includes six hurricanes. A hurricane watch is issued whenever a hurricane becomes a threat to coastal areas. If a hurricane warning is issued, precautionary actions should begin immediately. In the event of a tropical storm or hurricane, conserve supplies and resources and plan for up to five days without water or electricity.

- An ample supply of clean water is top priority; store one or more gallons of water per person, per day.
- Designate a ground-level family gathering space that has no windows and does not share any outside walls (if possible).
- Have a battery-powered radio and extra batteries on hand.

## Notary Services

Please be reminded that property management offers notary services for our tenants at no charge. As always, please call in advance to ensure that Dave Fetters will be able to assist you at 813.223.4525.

## It's Easy Eating Green

We've heard we should try to live a greener lifestyle by reducing, reusing and recycling. But what about our diets? Making environmentally conscious choices can be better for our waistlines, our wallets and our planet.

*Buy local.* When you purchase locally produced fruits, vegetables, meats, eggs and dairy products, you're supporting area farmers and cutting back on the fuel it takes to truck food across the country.

*Go organic.* Treating produce with pesticides can pollute soil, groundwater and possibly you. If you're budget-conscious, aim for organic when buying produce with thin, edible skins such as berries, grapes and bell peppers.

*Eat lower on the food chain.* Producing a pound of meat takes much more water and energy than producing a pound of grain or vegetables.

*Ditch the drive-through.* Idling in line at a fast-food restaurant wastes gas. Park the car and order inside. Better yet, whip up a quick meal at home. You'll save packaging waste and money, too.

*Banish bottled water.* Even if you recycle those plastic bottles, it still takes energy to produce, transport and recycle them.

*Take baby steps.* You don't have to go cold turkey on cheeseburgers. Even small changes, such as eating one meatless meal a week, can make a big difference over time.
