### Fan Coil Unit Operations

Do you have an office on the perimeter of the building? You can help control your temperature by adjusting the fan coil units along the outer wall. Make certain the Fan Speed Control is on. The knob is located on the left side of the control box. You can adjust the air flow by selecting high or low for the fan speed. Adjust the thermostat to the center setting. The knob is located on the right hand side of the control box. Turning the knob to the right increases cooling, turning to the left decreases cooling. If adjusting the fan coil doesn't make the office area cooler, please enter a work order.

## Resources at a Glance

### Tampa City Center Recycles E-Waste

Tampa City Center makes it easy for you to recycle E-Waste.

- Simply place a work order on Angus.
- Drop off locations are outside of the freight elevator. Please do include the floor you are on so the engineers are able to locate the items needing proper disposal.
- Contact the Property Management Office if you have questions about the items you wish to recycle.

### E-waste 101

The number of electronic products discarded worldwide has skyrocketed, causing dumps to fill with toxic waste that can't decompose and is harmful to people and the Earth. E-waste consists of electronic products at the end of their useful life, such as computers, televisions, VCRs, stereos, printers, fax machines and cell phones. If you can't just throw these things in the trash, what should you do with them? When you outgrow your computers, cell phones and other electronics, if they're still usable (or repairable), donate them to a charity.

If the items are beyond repair, find a place to recycle them. E-waste can be recycled for recovery of metals, plastics, glass and other materials. To find a program near you, you might want to start with your state or local government's website. Another great place to check is *Earth911.com*, where you will find community-specific information on e-waste recycling.

Many manufacturers and retailers, such as Best Buy, Dell and Sprint, provide options to donate or recycle your electronics. Some may have restrictions on sizes and brands they accept, and some may charge a small fee, but many offer you a gift card in return.

To find programs near you, check *Earth911.com* or the Environmental Protection Agency at [www.epa.gov](http://www.epa.gov); search for the keyword "eCycling."
